U.S. Patent No. 5,411,113; 5,868,223; 5,143,173 Cdn. Patent No. 2,073,648; 2,153,574; 2,057,615

Mills Construction Products is dedicated to consistently providing technologically advanced scaffold and shoring systems of aluminum and steel. All of which are user-friendly, safe, rugged, efficient and of the highest quality.

Versa™ System Scaffold was designed using a patented reverse wedge and elastic mouthpiece. This design has many advantages and is compatible with other rosette systems.

The **Versa™ Bleacher System**, when used in conjunction with **Versa™ System Scaffold** and **Versa Light™ Plank System** offers the versatility of custom applications. This system is proven and reliable and offers a wide variety of uses including special events and theme parks.
